

Unity Candle Ceremony

After Bride's Mother is seated:

Both Mothers come up to the altar together to light their child's individual small, white candles, flanking a large (unlit) white candle in the center.

After Marriage Kiss:

Bride and Groom now lift their individual candles out of their holders, light the large White candle in the center, *together* and then blow out their individual candles, replacing them back in their holders.

Then, the Officiant gives the Blessing for the Union.
